Dear Christiane,

We are writing to ask you to do the right thing. As you know, one of the PACs endorsing you has disseminated information to thousands of voters that is wholly false and prejudicial to the other candidates in this race who are working hard to reach the finish line fairly, honestly, and graciously.

We have been waiting for you to publicly address this matter, but we have been shocked by your silence – particularly since the integrity of your campaign has already come under formal scrutiny in the course of this race.

The mailer at issue gives you credit for great changes that you did not make and ascribes to you a false designation of incumbency. This is an actionable offense in some states because it creates an unfair advantage for a campaign in the eyes of the voting public. As someone who has deemed herself worthy of public office, you must do everything in your power to act in good faith and correct this as quickly as possible, including, at the very least, all of the following:

1. Immediately issue a statement to all forms of media (eg. social media, The Tennessean, TV) declaring the MNEA / NEA Advocacy Fund (“MNEA”) mail piece untrue.
2. By close of business July 26th, send out a mail piece from your campaign stating that the MNEA mail piece contains false information and ascribed to you a false designation of incumbency.
3. By close of business July 26th, demand and require MNEA send another mail piece stating that you are not an incumbent and correcting all false information contained in the prior mailer.

We look forward to your response. We are hopeful you will act with the integrity of someone deserving of public office and make this right as outlined above.

Sincerely,

Miranda Christy
